Preface

The coins now catalogued for sale are from a collection which was only started in the early 1960's. By resisting the temptation of buying large quantities of pieces the owner achieved a remarkable success in accumulating a number of exceptional coins, both from the point of view of rarity and, more especially, quality. The catalogue has been arranged in the categories in which the coins were collected, these groups being followed by the miscellaneous coins of the world in alphabetical order. Throughout the catalogue reference has been made to Freidberg's *Gold Coins of the World*, before the specialised references necessary for each country. Many of the coins were purchased at major auctions and these pedigrees have all been shown. However, a glance at the tickets will show that coins were also purchased from virtually every major dealer in Europe.

The series of the Low Countries and Netherlands includes 5 gold proofs of 10 ducat-sized coins, with other proofs and patterns; The Spanish coins, a four-excelentes and several choice 8 escudos; The Portuguese coins include the Peça of 1833 with upswept hair; The Brazilian series all dates of Dobrãos. The coins of Bolivia form a type collection in their own right and include the left facing bust of Bolivar on the 8 escudos of 1852 and the Pattern Boliviano of 1868 from the King Farouk Collection. The 20 coins of Malta are of a high standard including several sold in these rooms in 1967. The new reference book (by Restelli and Sammut) has been used to cover this series. The Russian coins include choice specimens of the 10 and 5 Roubles of Peter III, 1762. Other individual items are the Albanian proof set of 1926/7 of which only 18 were issued and the Danish Proof Krone of 5 Ducats, 1699, the second known specimen.

Specialists in the Sale by Auction of COINS and MILITARY & NAVAL MEDALS

SALE CATALOGUES

On the average we issue twelve or more Coin Catalogues and three Naval & Military Medal Catalogues each year, some of which are usually of sales of important Collections.

CATALOGUE SUBSCRIPTIONS

Sale Catalogues, frequently illustrated, are normally posted to Subscribers about three weeks prior to the date of Sale.

Lists of 'Prices Realised' are issued after each Sale, thus giving at a glance a reliable guide to value. The final test of value must always be auction prices rather than the figures given in books of reference, for changing times and fashions soon render the latter obsolete and misleading. The Lists of 'Prices Realised' will probably be enclosed in a following Sale Catalogue.

AIR MAIL POSTAGE

To allow subscribers resident outside Europe time to submit Postal Bids, Sale Catalogues will, if desired, be sent by Air Mail. Air Mail postage is not, however, included in the Subscription Rate and the cost must be borne by the Subscriber. In such cases a deposit against the cost is required.

ANNUAL SUBSCRIPTION RATES (*commencing from 1st January*)
